Cameras Hardware Update

2.1MP/1080p Star-Light™ Cameras Hardware Update

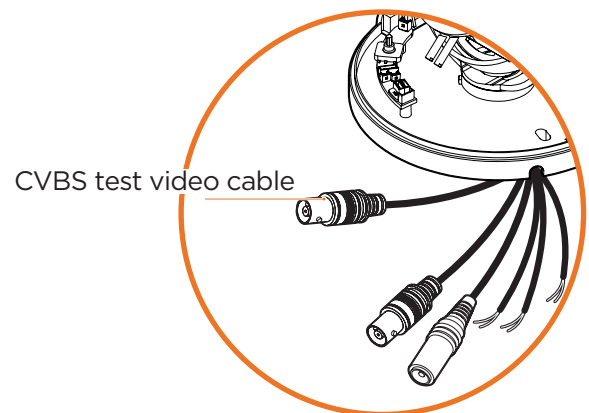

The 2.1MP/1080p Star-Light cameras with local BNC output have been upgraded to a simplified design. The new models have the BNC output moved from a port on the camera's motherboard to an external cable, accessible without disassembling or opening the camera cover.

The table below lists the affected models and the serial number for the new hardware.

DW MODEL	S/N
DWC-D3263WTIR	Not shipped yet
DWC-D4283WD	Not shipped yet
DWC-D4283WTIR	2209120051-2209120080
DWC-V4283WD	Not shipped yet
DWC-V4283WTIR	2208230010-2208230100
DWC-V6263WTIR	2209130001 - 2209131000
DWC-B6263WTIRW	2210190701-2210190900
DWC-B6263WTIR650W	2208230201-2208230250
DWC-LPR650UW	2208230101-2208230200
